- Consensus
- Security
- Transparency
- Speed, efficiency and reliability
- Community involvement
- Say goodbye to third parties
- Become censorship free
- Don't lose your sleep over security
- Get more uptime
- Immune your network from outages

THUNDERVOLT 

# Make Your Crypto Transaction Easier

**A cryptocurrency is a digital or virtual currency that is secured that is secured by cryptography. Which makes it nearly impossible to counterfeit or double-spend. Many cryptocurrencies are decentralize networks based on blockchain technology a distributed ledger enforced by a disparate network of computers . A defining feature of cryptocurrencies is that they are generally not issued by any central authority, rendering them theoretically immune to government interference or manipulation.**
